The first of these is the fact that the  
 system is not a simple one, but a  
 complex one, involving many factors  
 which are not yet fully understood.  
 The second is that the system is not  
 a static one, but a dynamic one,  
 which changes as it develops.  
 The third is that the system is not  
 a uniform one, but a varied one,  
 with many different types of  
 structures and functions.  
 The fourth is that the system is not  
 a closed one, but an open one,  
 which interacts with the environment.  
 The fifth is that the system is not  
 a simple one, but a complex one,  
 involving many factors which are  
 not yet fully understood.

The first of these is the fact that the  
 number of people who are employed in the  
 service of the government is increasing  
 rapidly. This is due to the fact that  
 the government is expanding its activities  
 in many fields, and is therefore  
 requiring more personnel to carry out  
 its functions. This is particularly true  
 in the case of the armed forces, where  
 the number of personnel is increasing  
 steadily. It is also true in the case  
 of the civil service, where the number  
 of personnel is increasing rapidly. This  
 is due to the fact that the government  
 is expanding its activities in many  
 fields, and is therefore requiring more  
 personnel to carry out its functions.
